2. The continuing effect of the COVID-19 pandemic on our business and operations is highly uncertain and cannot be predicted.

The continuing effect of the COVID-19 pandemic on our business and operations is highly uncertain and cannot be predicted. In late calendar 2019, COVID-19, commonly known as “novel coronavirus” was first reported in Wuhan, China. Since then, the virus has progressively spread globally to many countries. The World Health Organization declared the COVID-19 outbreak as a health emergency of international concern on January 30, 2020 and thereafter categorised the outbreak as a pandemic on March 11, 2020. In order to contain the spread of COVID-19 virus, the Government of India initially announced a 21-day lockdown on March 24, 2020, which, after being subject to successive extensions, is being relaxed currently. During the duration of the lockdown, there were several restrictions in place including travel restrictions and directive to all citizens to not move out of their respective houses unless essential. Whilst the lockdown required private, commercial and industrial establishments to remain closed, manufacturing units of essential commodities were permitted to be functional. The team members have been working from home during lockdown and have been able to execute their responsibilities and service clients without any disruption, difficulty or delay. Due to the rising number of infected cases of COVID-19 in the country, there is no certainty if additional restrictions will be put back in place or if another lockdown would be re-imposed to control the spread of the pandemic. We cannot assure you that we may not face any difficulty in our operations due to such restrictions and such a prolonged instance of lockdown may adversely affect our business, financial condition and results of operations. Further, our ability to

ensure the safety of our workforce and continuity of operations while confirming with measures implemented by the central and state governments in relation to the health and safety of our employees may result in increased costs. In the event a member or members of our senior management team contract COVID-19, it may potentially affect our operations. Further, in the event any of our employees contact COVID-19, we may be required to quarantine our employees and shut down a part of or the entire operating facility as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of our facility, loss of life, injuries and impact the wellbeing of our employees. The ultimate impact will depend on a number of factors, many of which are outside our control. These factors include the duration, severity and scope of the pandemic, the impact of the pandemic on economic activity in India and globally, the eventual level of infections in India, and the impact of any actions taken by governmental bodies or health organisations (whether mandatory or advisory) to combat the spread of the virus. These risks could have an adverse effect on our business, results of operations, cash flows and financial condition. To the extent that the COVID-19 pandemic adversely affects our business and operations, it may also have the effect of heightening many of the other risks described in this **"Risk Factors"** section.

3. We have certain contingent liabilities that have not been provided for in our financials which if materialized, could adversely affect our financial condition.

Our contingent liabilities as on March 31, 2020 as per our Restated Consolidated Financial Information is as under:

Particulars	Amount (₹ in Lakh)
Outstanding bank guarantees	71.20

In the event any such contingencies mentioned above were to materialize or if our contingent liabilities were to increase in the future, our financial condition could be adversely affected. For further details, see the section entitled **"Financial Statements as Restated"** on page 149 of this Draft Prospectus.

4. We require a number of approvals, NOCs, licenses, registrations and permits in the ordinary course of our business. Some of the approvals are required to be transferred in the name of G M Polyplast Limited from G. M. Polyplast Private Limited pursuant to name change of our company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.

We require a number of approvals, licenses, registrations and permits in ordinary course of our business. Additionally, we need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. Also, we were a private limited company in the name of "GM Polyplast Private limited" which was carrying business. After complying with the relevant procedure of Companies Act, 2013, the said private limited company was converted into a public limited company in the year 2020. After conversion there was change of name of the company from "GM Polyplast Private Limited" to "GM Polyplast Limited". We shall be taking necessary steps for transferring the approvals in new name of our Company. In case we fail to transfer/obtain the same in name of the Company the same may adversely affect our business or we may not be able to carry our business.

Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. For more information, see chapter **"Government and Other Statutory Approvals"** on page 211 of this Draft Prospectus.

5. There are certain discrepancies/errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 1956/2013. Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of the Company to that extent.

The Company has not complied with certain statutory provisions and there are the following discrepancies have been mentioned in the forms filed by the company with the Registrar of Companies under provisions of Companies Act, 2013/1956:

E-forms (Form 18, ADT-1, GNL-2) which are filed by the company with ROC requires certain documents to be attached along with E forms, there has been instances where company has not attached any documents in the form and at some places the attached documents in the form were not stamped & signed by the requisite authority when filed to Roc.
2. The ROC has levied additional fees for late filing of some forms, (23AC / 23ACA / AOC-4) if the company continues to file the forms after the due date it may attract some penalties in the form of additional fees which may in turn effect the financial performance of the company.
3. Our company has filed Form-PAS-3 for the allotment of equity shares made on March 20, 2014 through preferential allotment issue under Companies Act, 1956, however the required form 23 in this matter was not filed by the company in the year 2014.
4. Provisions of SS-1, SS-2 of the Companies Act, 2013/ 1956; and
5. Provisions of Section 12 of the Companies Act, 2013.

6. ***No assurance of business and availability of certificates, consents and approvals due to the pandemic Covid-19 and Lockdown at certain places being designated as contaminated zone.***

7. If we are unable to renew our existing leases or secure new leases for our existing or premises, or offices on commercially acceptable terms, or if we fail to comply with the terms and conditions of our leases resulting in termination of our leases, it could have a material adverse effect on our business, financial condition and results of operations.

For details on the duration of existing leases for our delivery centres, see "**Our Business**" beginning on page 94 of this Draft Prospectus. In the event that if we fail to comply with the terms and conditions of our lease or that these existing leases are terminated, or they are not renewed on commercially acceptable terms, we may suffer a disruption in our operations. If alternative premises are not available at the same or similar costs, size or locations, our business, financial condition and results of operations may be adversely affected. In addition, any adverse development relating to the landlord's title or ownership rights to such properties may entail incurring significant legal expenses and adversely affect our operations, a significant interest penalty for any delays in payment of rent and fixed price escalation clauses that provide for a periodic increase in rent. If our sales do not increase in line with our rent and costs, our profitability and results of operations could be adversely affected.

8. We are subject to foreign currency exchange rate fluctuations which could have a material and adverse effect on our results of operations and financial conditions

Any adverse or unforeseen fluctuations with respect to the unhedged exchange rate of any foreign currency for Indian Rupees may affect our Company's results of operations.

Our Directors and promoters are interested in Ace Extrusions Private Limited & G. M. Plasto Pack LLP as Director, Shareholder and profit-sharing partner respectively. The main business object/activities of a company and LLP named, permit it to undertake similar business to that of our business, which may create a potential conflict of interest and which in turn, may have an implication on our operations and profits. Conflicts of interests may arise in allocating business opportunities between our Company and our Group Company in circumstances where our respective interests diverge. In cases of conflict, our Promoters may favour other companies in which our Promoters have interest.

Further online filing of RoC documents was initiated in the year 2006 and all forms prior to the said year were physically filed, hence some of these forms could not be retrieved from Ministry of Corporate Affairs (MCA) portal. We also face the risks associated with compensating for or passing on such increase in our cost of production on account of such fluctuations in prices to our customers. Further, we cannot give an assurance that our Lease Agreement for the said premises would be renewed on commercially acceptable terms or at all.

15. Our Company is dependent on third party transportation providers for the delivery of our products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.

We are depended on third-party transportation to receive input materials required for our products and to deliver our finished products to our customers. Third-party logistics providers for all of our product distribution and input materials procurement. This makes us dependent on such third-party transportation providers. Weather-related problems, strikes, or other events which affects third-party transportation could impair our ability to receive the raw materials and/or deliver the requisite quantities of products in time to our customers, which may result in cancellation or non-renewal of purchase orders, and could adversely affect the performance of our business, results of operations and cash flows.

16. We are dependent upon few suppliers for our raw material for our current manufacturing facility. In an eventuality where our suppliers are unable to deliver us the required materials in a time-bound manner it may have a material adverse effect on our business operations and profitability.

We are dependent upon few suppliers for our raw material for our current manufacturing facility. Major portion of raw materials are coming from our top ten suppliers. In Financial Year 2019-20, majority of raw material has been received from top ten suppliers. Identifying a suitable supplier involves a process that requires us to become satisfied with their quality control, consistency, responsiveness and service, financial stability and other ethical practices and specifically they must be reputed suppliers. Typically, we do not enter into long term contracts with our suppliers and prices for these items are normally based on the quotes we receive from various approved suppliers. Any unexpected price fluctuations after placement of orders, shortage, delay in delivery, quality defects, or any factors beyond our control may result in an interruption in the supply of such items which is critical to our business. Any delay, interruption or increased cost in the supply of any items thereof pertaining to our project arising from a lack of long-term contracts could have an adverse effect on our ability to meet our targets and client satisfaction from our service and our business, financial performance and cash flows may be adversely affected. Further, we may not be able to locate alternative suppliers of these items with approved specification on terms acceptable to us, or at all. For further details pertaining to details of Suppliers, please refer to the chapter titled "**Financial Statement as Restated**" beginning on page 149 of this Draft Prospectus.

17. Our Company is dependent on the continuing operation of our manufacturing facilities. Any significant interruption in manufacturing at our facilities could have a material adverse effect on our business, results of operations and financial condition.

Our Company manufactures substantially all of the products at our manufacturing facilities located at Dadra & Nagar Haveli which are subject to the normal risks of industrial production, including equipment breakdowns, labour stoppages, natural disasters, industrial accidents, power interruptions etc. In case of any disruption at such facilities, it may adversely affect the manufacturing cycle, and may lead to time over-run in the execution of the project. All of these manufacturing facilities require a significant amount and continuous supply of electricity and any shortage or non-availability of electricity may adversely affect our operations. The manufacturing process of our products requires significant electricity. For further information, refer "**Government and Other Statutory Approvals**" on page 211 of this Draft Prospectus.

18. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

19. We may not be successful in implementing our business strategies.

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

20. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.

Modernization and technology upgradation is essential to provide better quality products. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or

upgrade. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations.

21. *Our Company in the past has entered into Related Party Transactions and may continue to do so in future also, which may adversely affect our competitive edge and better bargaining power if entered with non-related parties resulting into relatively more favourable terms and conditions and better margins.*

Our Company had entered into various transactions with our Directors, Promoters and Promoter Group. These transactions, inter-alia include issue of shares, remuneration, loans and advances etc. Our Company has entered into such transactions due to easy proximity and quick execution. However, there is no assurance that we could not have obtained better and more favourable terms than from transaction with related parties. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse effect on results of our operations.

22. *The success of the products manufactured by us depends on the success of the end product of our customer. Reduction in sales of the products of our customer, or defects in our customers' products which may be attributable to us, may adversely affect our business, financial condition, results of operations and prospects.*

The success of our business depends on the growth in the business of our customers. The production and sales volumes of our customers may be affected by a number of factors such as change in economic, change in regulatory requirements, government initiatives, products becoming obsolete or being phased out. Any decline in the demand for our customers' products may adversely affect the sales of our products to our customers and in turn may adversely affect our business, financial condition, results of operations and prospects. Further, defects in our customers' products, which may be attributable to us, directly or indirectly, may also adversely affect our financial condition and prospects.

23. *Our ability to attract, train and retain executives and other qualified employees is critical to our business, results of operations and future growth.*

Our business and future growth is substantially dependent on the continued services and performance of our key executives, senior management and skilled personnel, especially personnel with experience in our industry. In particular, our Managing Director, Mr. Dinesh Balbirsingh Sharma and our senior management team are critical to the overall management of our Company. Their inputs and experience are also valuable for the development of our services, our work culture and the strategic direction taken by our Company. Further, our business depends upon our employees for its successful execution. All the projects are time-consuming to acquire and/or develop; as a result, such skilled personnel are often in short supply. We may require a long period of time to hire and train replaced personnel when skilled personnel terminate their employment with our Company. Our ability to compete effectively depends on our ability to attract new employees and to retain and motivate our existing employees. We may be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting skilled employees that our business requires. If we do not succeed in attracting well-qualified employees or retaining or motivating existing employees, our business and prospects for growth could be adversely affected.

24. *Our Company will not receive any proceeds from the Offer for Sale portion.*

This Offer comprises of an offer for sale of 1,86,000 Equity Shares by our Promoters and Promoter Group (Selling Shareholders) and fresh issue of 3,20,000 Equity Shares. The proceeds from the Offer pertaining to the above sale shares will be paid to the aforesaid persons in proportion of the Equity Shares offered by them in the Offer and we will not receive any proceeds from the Offer. For further details, please refer the chapter titled "**Objects of the Offer**" beginning on page 72 of the Draft Prospectus.

25. *Some of our Directors have interests other than reimbursement of expenses incurred and normal remuneration or benefits in our Company*

Our Directors namely, Mr. Dinesh Balbirsingh Sharma and Ms. Sarita Dinesh Sharma are interested in our Company to the extent of the Equity Shares held by them in the Company, and any dividends, bonuses or other distributions on such Equity Shares. The premises where registered office & manufacturing facility of our Company is situated is taken on lease from Mr. Dinesh Balbirsingh Sharma and Ms. Sarita Dinesh Sharma, the Promoters and Director of our Company. For details, refer chapters titled "**Our Management**", "**Our**

Promoters and Promoter Group" and section titled "**Financial Statements as Restated**" beginning on pages 120, 141 and 149 of this Draft Prospectus, respectively.

26. Our Company has a negative cash flow in its operating activities as well as investing activities in the past 3 years, details of which are given below. Sustained negative cash flow could impact our growth and business.

Our Company had negative cash flows from our operating activities as well as investing activities in the previous year(s) as per the Restated Financial Statements and the same are summarized as under:

Particulars	₹ in Lakh)		
	2020	2019	2018
Net cash (used in)/ generated from operating Activities	294.87	158.98	243.98
Net cash (used in)/ generated from investing Activities	(64.64)	(107.00)	(145.84)
Net cash (used in)/ generated from financing Activities	(97.46)	(161.81)	59.04
Net increase/ (decrease) in cash and cash Equivalents	132.77	(109.83)	157.17
Cash and Cash Equivalents at the beginning of the period	139.19	249.01	91.84
Cash and Cash Equivalents at the end of the Period	271.95	139.19	249.01

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

27. Our manufacturing activities are dependent upon availability of skilled and unskilled labour.

We do not have any permanent arrangement of labour and recruitments are made on daily basis as per requirements except for those who are on permanent pay rolls. Our manufacturing activities are dependent on availability of skilled and unskilled labour. Non-availability of labour at any time or any disputes with them may affect our production schedule and timely delivery of our products to customers which may adversely affect our business and result of operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Though we have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past; however, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain, flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

28. Significant disruptions in our information technology systems or breaches of data security could adversely affect our business and reputation.

We may also face cyber threats such as: (i) Phishing and Trojans - targeting our customers, wherein fraudsters send unsolicited codes or mails to our customers seeking account sensitive information or to infect customer machines to search and attempt ex-filtration of account sensitive information; (ii) Hacking – wherein attackers seek to hack into our infrastructure with the primary intention of causing reputational damage to us by disrupting services; (iii) Data theft – This can be internal i.e. by someone who has access to data of our Company or external wherein unconnected cyber criminals may attempt to intrude into our network with the intention of stealing our data or information; and (iv) Advanced persistent threat – a network attack in which an unauthorized person gains access to our network and remains undetected for a long period of time. In the event of a significant decline in the demand for our products, our business, results of operations and financial condition may be materially and adversely affected.

Our systems are potentially vulnerable to data security breaches, whether by our employees, or our service providers or others that may expose sensitive data to unauthorized persons. We process and transfer data, including personal information, financial information and other confidential data provided to us by our clients. Although we maintain systems and procedures to prevent unauthorized access and other security breaches, it is possible that unauthorized individuals could improperly access our systems, or improperly obtain or disclose sensitive data that we process or handle. Data security breaches could lead to the loss of intellectual property or could lead to the public exposure of personal information (including sensitive financial and personal information) of our clients' investors or our employees. Any such security breaches or compromises of technology systems could result in institution of legal proceedings against us and potential imposition of penalties, which may have an adverse effect on our business and reputation.

29. *The nature of our business exposes us to liability claims and contract disputes and our indemnities may not adequately protect us. Any liability in excess of our reserves or indemnities could result in additional costs, which would reduce our profits.*

Time is often of the essence in our business work. In the event there are delays in our current or future service, we will not be able to get extensions from our customers. Further, in some contracts, in case of delay due to deficiency in services by us, clients may have the right to complete the work at our risk and cost by engaging a third party. In the event we fail to perform under the terms of a particular contract that could adversely affect our financial conditions and business operations. Failure to effectively cover ourselves against any of these reasons could expose us to substantial costs and potentially lead to material losses. In addition, if there is a customer dispute regarding our performance or workmanship, the customer may delay or withhold payment to us.

30. *We have not entered into any long-term contracts with any of our customers, which could adversely impact our revenue and profitability.*

We do not have any long-term contracts with our customers. We cater our products on an order to order basis. Our customers can terminate their relationship with us by giving notice and as such terms and conditions as mutually agreed upon, which could materially and adversely impact our business. Although we believe that we have satisfactory business relation with our customers and have received business from them in the past and will regularly receive the business in future also but there is no certainty that we will receive business in future from them and may affect our profitability.

31. *Employee fraud or misconduct could harm us by impairing our ability to attract and retain clients and subject us to significant legal liability and reputational harm.*

Our business is exposed to the risk of employee misappropriation, fraud or misconduct. Our employees could make improper use or disclose confidential information, which could result in regulatory sanctions and serious reputational or financial harm. While we strive to monitor, detect and prevent fraud or misappropriation by our employees, through various internal control measures, we may be unable to adequately prevent or deter such activities in all cases. Our dependence upon automated systems to record and process transactions may further increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect. While we have not been able to identify such issues in the past, there could be instances of fraud and misconduct by our employees, which may go unnoticed for certain periods of time before corrective action is taken. In addition, we may be subject to regulatory or other proceedings, penalties or other actions in connection with any such unauthorized transaction, fraud or misappropriation by our agents or employees, which could adversely affect our goodwill, business prospects and future financial performance. We may also be required to make good any monetary loss to the affected party. Even when we identify instances of fraud and other misconduct and pursue legal recourse or file claims with our insurance carriers, we cannot assure you that we will recover any amounts lost through such fraud or other misconduct.

32. *The average cost of acquisition of Equity Shares by our Promoters is lower than the offer price.*

Our Promoters' average cost of acquisition of Equity Shares in our Company is lower than the Offer Price as decided by the Company in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title "**Capital Structure**" beginning on page 61 of this Draft Prospectus.

33. Our top 10 customers contribute major portion of our revenues for the period March 31, 2020. Any loss of business from one or more of them may adversely affect our revenues and profitability.

Our top ten customers contribute to a substantial portion of our revenues for the year ended March 31, 2020. Any decline in our quality standards, growing competition and any change in the demand for our service by these customers may adversely affect our ability to retain them. We believe we have maintained good and long-term relationships with our customers. However, there can be no assurance that we will continue to have such long-term relationship with them, also any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability.

Due to COVID-19 pandemic, there may be have been a temporary reduction in demand for our services and there may have been an overall slowdown in the industry. Further, such pandemic situations may also arise in the future and that could materially and adversely affect our business, financial condition and results of operations. Our growth has required and will continue to require increased investments in management personnel and systems, financial systems and controls, and office facilities. However, we cannot assure you that such investments will yield desired results and we may incur costs that we may not be able to recover. We may also be unable to hire additional qualified personnel to support the offering of a wider range of services. If we fail to manage our growth, we may experience operating inefficiencies, dissatisfaction among our client base, and lost revenue opportunities, which may adversely affect our business, results of operations and financial condition.

The contribution of our top 10 customers to our total revenue are as follows:

Particulars	Customers
Top 10 (%)	46.63

34. Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive. A significant portion of our working capital is utilized towards trade receivables. Summary of our working capital position is given below:

Particulars	March 31, 2019	March 31, 2020	March 31, 2021	March 31, 2022

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets particularly trade receivables. Our inability to maintain sufficient cash flow, credit facility and

other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled "**Objects of the Offer**" beginning on page 72 of this Draft Prospectus.

35. We face intense competition in our businesses, which may limit our growth and prospects. The markets for our services continue to evolve and are competitive.

We compete with a number of entities that produces similar products in which we operate. Our competitors may be able to respond more quickly to new or changing opportunities, technologies, and client requirements and may offer better technological services, more attractive terms to clients and adopt more aggressive pricing policies than we will be able to offer or adopt. In addition, we expect that the markets in which we compete will continue to attract new competitors and new technologies, including international providers of services similar to ours. We compete on the basis of a number of factors, including execution, depth of product offerings, innovation, reputation, price and convenience. Our competitors may have advantages over us.

We cannot assure you that we will be able to compete effectively with current or future competitors or that we will be successful in attracting new customers for our business. These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures.

36. We are dependent on a number of Key Managerial Personnel and our senior management, and the loss of, or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.

Our performance depends largely on the efforts, expertise and abilities of our Key Managerial Personnel, senior management, and our operational personnel who possess significant experience in the industry in which we operate. We believe that the inputs and experience of our KMP and senior management, in particular, and other key personnel are valuable for the development of our business, operations and the strategic directions taken by our Company. We cannot assure you that these individuals or any other member of our senior management team will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. Moreover, we may be required to substantially increase the number of our qualified personnel in connection with any future growth plans, and we may face difficulty in doing so due to the intense competition in the technology industry for such personnel. We may also be required to increase our levels of employee compensation more rapidly than in the past in order to remain competitive in retaining.

Further, the COVID -19 pandemic has dynamically altered the approach on workplace hygiene and safety and continuity of operations while confirming with measures implemented by the central and state governments in relation to the health and safety of our employees may result in increased costs. In the event a member or members of our senior management team contract COVID-19, it may potentially affect our operations. Further, in the event any of our employees' contract COVID-19, we may be required to quarantine our employees and shut down a part of or the entire operating facility as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of our facility, loss of life, injuries and impact the well-being of our employees.

37. Our operations could be adversely affected by strikes or increased wage demands by our employees or any other kind of disputes with our employees.

As on August 31, 2020, we employed 52, personnel (permanent employees) across our operations. Although we have not experienced any employee unrest in the past, we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Any employee unrest directed against us, could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations. These actions are impossible for us to predict or control and any such event could adversely affect our business, results of operations and financial condition. Further we may also enter into contracts with independent contractors and service providers to complete specific assignments and these contractors and service providers would be required to provide the workforce necessary to complete such assignments by hiring labourers. Although we may not engage the workforce directly and our contracts with such independent

contractors and service providers may contain indemnity provisions to protect us from any claims by statutory authorities, the occurrence of such events could adversely affect our business, results of operations and financial condition. Additionally, none of our employees are affiliated with any labour unions. However, there can be no assurance that our employees will not form a union, join any existing union or otherwise organize themselves. India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Although, we currently have harmonious relations with our employees and they are not unionized at present, there can be no assurance that we will continue to have such relations. If our relations with our employees are strained, it may become difficult for us to maintain our existing labour policies, and our business may be adversely affected.

38. *Compliance with, and changes in, safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.*

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subject to environmental laws and regulations, including but not limited to:

- a. Environment (Protection) Act, 1986
- b. Air (Prevention and Control of Pollution) Act, 1981
- c. Water (Prevention and Control of Pollution) Act, 1974
- d. Other regulations promulgated by the Ministry of Environment and Forests and the Pollution Control Board of the state of Maharashtra.

which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business. The scope and extent of any new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non-compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

39. *Our future success will depend on our ability to anticipate and respond to technological advances, new standards and changing consumer preferences.*

Our success will depend on our ability to anticipate technological advances, new standards and changing consumer preferences and develop new products to meet consumer needs. There is a significant shift towards the energy efficient products driven by the Governments' drive to reduce energy costs. In several categories, products which are more energy efficient are being promoted and preferred.

Our future success in the manufacturing segment depends upon our ability to keep up with the continuing evolution of technology to capture the growing market opportunity. The development and introduction of new products may result in additional product introduction expenses.

40. *Our operating expenses include overheads that may remain fixed in the medium term. In case there is any decline in our operating performance, we may be unable to reduce such expenses.*

Our operating expenses include various fixed costs, which are as such, not dependent on sales revenue. Any shortfall in sales may cause significant variations in operating results in any particular quarter, as we would not be able to reduce our fixed operating expenses in the short term. The effect of any decline in sales may thereby be magnified because a portion of our earnings are committed to paying these fixed costs. Accordingly, we believe that period-to-period comparisons of our results may not necessarily give a correct presentation of the performance and should not be relied upon as indications of future performance.

41. *If we are unable to raise additional capital, our business prospects could be adversely affected.*

We operate in a capital-intensive industry, which requires substantial levels of funding. We will continue to incur significant expenditure in maintaining and growing our existing infrastructure. We expect our long-term capital requirements to increase significantly to fund our intended growth.

We cannot assure you that we will have sufficient capital resources for any future expansion plans that we may have. While we expect our cash on hand, cash flow from operations to be adequate to fund our existing commitments, our ability to pay these amounts is dependent upon the success of our operations. Additionally, the inability to obtain sufficient financing could adversely affect our ability to complete expansion plans. Moreover, we cannot assure you that market conditions and other factors would permit us to obtain future financing on terms acceptable to us, or at all.

42. *Our insurance policies do not cover all risks, specifically risks like loss of profits, terrorism, etc. In the event of occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.*

Our company has obtained insurance coverage in respect of certain risks. Our significant accounting policies consists of, amongst others, standard fire and special perils, earthquakes, etc. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like loss of profits, terrorism, etc. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial conditions and results of operations may be materially and adversely affected.

43. *There are no alternate arrangements for meeting our working capital requirements for the Objects of the Offer. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Offer. We meet our working capital requirements through our owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our working capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not yet identified any alternate source of funding and hence any failure or delay on our part to raise money from this Offer or any shortfall in the Offer Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer chapter titled “*Objects of the Offer*” beginning on page 72 of this Draft Prospectus.

44. *Guarantees from Promoters, Directors as well as others have been taken in relation to the debt facilities provided to us.*

In an event any of the guarantors withdraws or terminates this guarantee, the lender for such facilities may ask for alternate guarantee/s, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantee/s satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information, please see the chapter titled “*Statement of Financial Indebtedness*” beginning on page 204 of this Draft Prospectus.

45. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholder’s investments

may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “**Dividend Policy**” beginning on page 148 of this Draft Prospectus.

46. Our lenders have charge over immovable properties in respect of finance availed by us.

Our company has taken secured loans from banks by creating a charge over our movable and immovable properties in respect of loans/facilities availed by us. The total amount outstanding and payable by us for secured loans were ₹265.23 Lakh as on March 31, 2020. In the event we default in repayment of the loans/facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on our business, financial condition and results of operations. For further detail please refer to chapter titled “**Financial Statements as Restated**” beginning on page 149 and financial indebtedness in chapter titled “**Statement of Financial Indebtedness**” beginning on page 204 of this Draft Prospectus.

47. Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

48. Underutilization of capacity of our manufacturing facility may adversely affect our business, results of operations and financial conditions.

We cannot assure that we shall be able to utilize our facility to their full capacity or up to an optimum capacity, and non-utilization of the same may lead to loss of profits or can result in losses, and may adversely affect our business, results of operations and financial condition. Even use of the proposed production capacity is subject to several variables like availability of raw material, power, water, proper working of machinery, orders on hand, supply/demand, manpower, etc.

49. We may not be successful in implementing our business strategies.

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

50. Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure, and formulation of a scheme of amalgamation or reconstruction and entering into any other borrowing arrangement. Further, we are required to maintain certain financial ratios.

There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that are not waived by our lenders or are not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. Though these covenants are restrictive to some extent to the Company however it ensures financial discipline, which would help the Company in the long run to improve its financial performance. We did not get most of the NOC from our lenders.

For further information, see the chapter titled “**Statement of Financial Indebtedness**” beginning on page 204 of the Draft Prospectus.

51. Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

52. Certain agreements/deeds may be inadequately stamped or may not have been registered as a result of which our operations may be impaired.

Our certain agreements/deeds may not have been stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute vis-à-vis the said premises and our non-compliance of local laws relating to stamp duty and registration may adversely impact the continuance of our activity from such premises. Our deed of registered office and corporate office are not registered.

53. Certain Agreements /deeds may be in the previous name of the company.

Our certain agreements and deeds may be in the name of the erstwhile name of the company i.e. G M Polyplast Limited. In case we fail to change the name in the agreements and deeds, it may cause adverse effect on Our company’s business.

55. Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.

Our operations may be subject to incidents of theft or damage to inventory in transit, prior to or during stocking and display. Although till date we have never experienced any such instance, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations and financial condition.

Additionally, losses due to theft, fire, breakage or damage caused by other casualties, could adversely affect our results of operations and financial condition.

56. There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all.

In accordance with Indian law and practice, permission to list the Equity Shares will not be granted until after the Equity Shares have been issued and allotted. Approval will require all other relevant documents authorizing the issuing of our Equity Shares to be submitted. There could be a failure or delay in listing our Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

57. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

60. *Our operations may be adversely affected in case of industrial accidents at our working sites*

After completion of the Offer, our Promoters and Promoter Group will collectively own 73.65% of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

62. Negative publicity could adversely affect our revenue model and profitability.

We work in the market where trust of the customers on us and upon the services provided by us matters a lot. Any negative publicity regarding our company or the services rendered by the company due to any other unforeseen events may affect our reputation and image which leads to the adverse effect on our business and goodwill as well.

63. Industry information included in this Draft Prospectus has been derived from industry reports commissioned by us for such purpose. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.

64. The requirements of being a public listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. Offer Specific Risks:

65. There are restrictions on daily/weekly/monthly movements in the price of the Equity Shares, which may adversely affect a shareholders' ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Once listed, we would be subject to circuit breakers imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

66. After this Offer, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.

There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Offer. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Offer or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Offer.

67. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Offer until the Offer receives appropriate trading permissions.

EXTERNAL RISKS

Industry Related Risks:

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

71. Malpractices by some players in the industry affect overall performance of emerging Companies

The industry in which our Company operates is subject to risk associated with unethical business practices such as unethical marketing, dishonest advertising, questionable pricing practices, inaccurate claims with regards to safety and efficacy of the product etc. Consumers' attitude toward the industry today is dominated by a sense of mistrust, paving a way for regulators for stricter entry barriers and introduction of code of conducts; making the entire industry environment regulated and controlled. Malpractices by some players in the industry affects the overall performance of the emerging Companies like our as the industry norms are applicable to all at parity. Any unethical business practices by any industry player or intermediary may impact our business and results of operations.

Other Risks:

72. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian Company are generally taxable in India. Any gain on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain on the sale of shares held for more than 12 months to an Indian resident, which are sold other than on a stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain on the sale of shares held for a period of 12 months or less will be subject to capital gains tax in India. Further, any gain on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

In Finance Bill 2017, section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October 2004 shall be available only if the acquisition of share is chargeable to Securities Transactions Tax (STT) under Chapter VII of the Finance (No 2) Act, 2004. In case this provision becomes effective, sale shares acquired on or after 1st day of October 2004 on which STT was not charged will attract tax under provisions of Long-Term Capital Gains.

As per Finance Bill 2018, exemption under section 10(38) for income arising from long term gains on transfer of equity share shall not be available on or after 1st day of April 2018 if the long-term capital gains exceed ₹ 1.00 Lakh p.a. Such income arising from long term gains on transfer of equity share on or after 1st day of April 2018 in excess of ₹1.00 Lakh p.a. shall be chargeable at the rate of 10%. Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency a magnitude, which may negatively affect our stock prices.

78. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. 81. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

OVERVIEW OF GLOBAL ECONOMY

A Crisis Like No Other, An Uncertain Recovery Global growth is projected at -4.9 percent in 2020, 1.9 percentage points below the April 2020 World Economic Outlook (WEO) forecast. The COVID-19 pandemic has had a more negative impact on activity in the first half of 2020 than anticipated, and the recovery is projected to be more gradual than previously forecast. In 2021 global growth is projected at 5.4 percent. Overall, this would leave 2021 GDP some 6½ percentage points lower than in the pre-COVID-19 projections of January 2020. The adverse impact on low-income households is particularly acute, imperilling the significant progress made in reducing extreme poverty in the world since the 1990s. As with the April 2020 WEO projections, there is a higher-than-usual degree of uncertainty around this forecast. The baseline projection rests on key assumptions about the fallout from the pandemic. In economies with declining infection rates, the slower recovery path in the updated forecast reflects persistent social distancing into the second half of 2020; greater scarring (damage to supply potential) from the larger-than-anticipated hit to activity during the lockdown in the first and second quarters of 2020; and a hit to productivity as surviving businesses ramp up necessary workplace safety and hygiene practices. For economies struggling to control infection rates, a lengthier lockdown will inflict an additional toll on activity. Moreover, the forecast assumes that financial conditions—which have eased following the release of the April 2020 WEO—will remain broadly at current levels. Alternative outcomes to those in the baseline are clearly possible, and not just because of how the pandemic is evolving. The extent of the recent rebound in financial market sentiment appears disconnected from shifts in underlying economic prospects—as the June 2020 Global Financial Stability Report (GFSR) Update discusses—raising the possibility that financial conditions may tighten more than assumed in the baseline. All countries—including those that have seemingly passed peaks in infections—should ensure that their health care systems are adequately resourced. The international community must vastly step up its support of national initiatives, including through financial assistance to countries with limited health care capacity and channelling of funding for vaccine production as trials advance, so that adequate, affordable doses are quickly available to all countries. Where lockdowns are required, economic policy should continue to cushion household income losses with sizable, well-targeted measures as well as provide support to firms suffering the consequences of mandated restrictions on activity. Where economies are reopening, targeted support should be gradually unwound as the recovery gets underway, and policies should provide stimulus to lift demand and ease and incentivize the reallocation of resources away from sectors likely to emerge persistently smaller after the pandemic. Strong multilateral cooperation remains essential on multiple fronts. Liquidity assistance is urgently needed for countries confronting health crises and external funding shortfalls, including through debt relief and financing through the global financial safety net. Beyond the pandemic, policymakers must cooperate to resolve trade and technology tensions that endanger an eventual recovery from the COVID-19 crisis. Furthermore, building on the record drop in greenhouse gas emissions during the pandemic, policymakers should both implement their climate change mitigation commitments and work together to scale up equitably designed carbon taxation or equivalent schemes. The global community must act now to avoid a repeat of this catastrophe by building global stockpiles of essential supplies and protective equipment, funding research and supporting public health systems, and putting in place effective modalities for delivering relief to the neediest.

COVID-19 Crisis: More Severe Economic Fallout than Anticipated Economic data available at the time of the April 2020 WEO forecast indicated an unprecedented decline in global activity due to the COVID-19 pandemic. Data releases since then suggest even deeper downturns than previously projected for several economies. The pandemic has worsened in many countries, levelled off in others. Following the release of the April 2020 WEO, the pandemic rapidly intensified in a number of emerging market and developing economies, necessitating stringent lockdowns and resulting in even larger disruptions to activity than forecast. In others, recorded infections and mortality have instead been more modest on a per capita basis, although limited testing implies considerable uncertainty about the path of the pandemic. In many advanced economies, the pace of new infections and hospital intensive care occupancy rates have declined thanks to weeks of lockdowns and voluntary distancing.

Synchronized, deep downturn. First-quarter GDP was generally worse than expected (the few exceptions include, for example, Chile, China, India, Malaysia, and Thailand, among emerging markets, and Australia, Germany, and Japan, among advanced economies). High-frequency indicators point to a more severe contraction in the second quarter, except in China, where most of the country had reopened by early April. Consumption and services output have dropped markedly. In most recessions, consumers dig into their savings or rely on social safety nets and family support to smooth spending, and consumption is affected relatively less than investment. But this time, consumption and services output have also dropped markedly. The pattern reflects a unique combination of factors: voluntary social distancing, lockdowns needed to slow transmission and allow health care systems to handle rapidly rising caseloads, steep income losses, and weaker consumer confidence. Firms have also cut back on investment when faced with precipitous demand declines, supply interruptions, and uncertain future earnings prospects. Thus, there is a broad-based aggregate demand shock, compounding near-term supply disruptions due to lockdowns. Mobility remains depressed. Globally, lockdowns were at their most intense and widespread from about mid-March through mid-May. As economies have gradually reopened, mobility has picked up in some areas but generally remains low compared to pre-virus levels, suggesting people are voluntarily reducing exposure to one another. Mobility data from cell phone tracking, for example, indicate that activity in retail, recreation, transit stations, and workplaces remains depressed in most countries, although it appears to be returning to baseline in certain areas. Severe hit to the labor market. The steep decline in activity comes with a catastrophic hit to the global labor market. Some countries (notably in Europe) have contained the fallout with effective short-term work schemes. Nonetheless, according to the International Labour Organization, the global decline in work hours in 2020: Q1 compared to 2019: Q4 was equivalent to the loss of 130 million full-time jobs. The decline in 2020: Q2 is likely to be equivalent to more than 300 million full-time jobs. Where economies have been reopening, activity may have troughed in April—as suggested, for example, by the May employment report for the United States, where furloughed workers are returning to work in some of the sectors most affected by the lockdown.

The hit to the labor market has been particularly acute for low-skilled workers who do not have the option of working from home. Income losses also appear to have been uneven across genders, with women among lower-income groups bearing a larger brunt of the impact in some countries. Of the approximately 2 billion informally employed workers worldwide, the International Labour organization estimates close to 80 percent have been significantly affected. Contraction in global trade. The synchronized nature of the downturn has amplified domestic disruptions around the globe. Trade contracted by close to -3.5 percent (year over year) in the first quarter, reflecting weak demand, the collapse in cross-border tourism, and supply dislocations related to shutdowns (exacerbated in some cases by trade restrictions) Weaker inflation. Average inflation in advanced economies had dropped about 1.3 percentage points since the end of 2019, to 0.4 percent (year over year) as of April 2020, while in emerging market economies it had fallen 1.2 percentage points, to 4.2 percent. Downward price pressure from the decline in aggregate demand, together with the effects of lower fuel prices, seems to have more than offset any upward cost-push pressure from supply interruptions so far.

GOVERNMENT INITIATIVES

The first Union Budget of the third decade of 21st century was presented by Minister for Finance & Corporate Affairs, Ms Nirmala Sitharaman in the Parliament on February 1, 2020. The budget aimed at energising the Indian economy through a combination of short-term, medium-term, and long-term measures.

Total expenditure for 2020-21 is budgeted at Rs 37.14 lakh crore (US\$ 531.53 billion), an increase of 13 per cent from 2019-20 (revised budget estimates). Numerous foreign companies are setting up their facilities in India on account of various Government initiatives like Make in India and Digital India. Mr Narendra Modi, Prime Minister of India, launched Make in India initiative with an aim to boost country's manufacturing sector and increase purchasing power of an average Indian consumer, which would further drive demand and spur development, thus benefiting investors. The Government of India, under its Make in India initiative, is trying to boost the contribution made by the manufacturing sector with an aim to take it to 25 per cent of the GDP from the current 17 per cent. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy.

Some of the recent initiatives and developments undertaken by the Government are listed below:

- The Prime Minister of India, Mr Narendra Modi announced various economic packages, having a cumulative worth of around Rs 20 lakh crore (US\$ 283.73 billion) and being almost 10 per cent of India's GDP.
- Pradhan Mantri Garib Kalyan Package (PMGK) was introduced in April 2020 to provide relief to underprivileged and help them fight the battle against COVID-19. The budget allocated to the scheme was Rs 1.70 lakh crore (US\$ 24.12 billion).
- India is expected to attract investment of around US\$ 100 billion in developing the oil and gas infrastructure during 2019-23.
- The Government of India is going to increase public health spending to 2.5 per cent of the GDP by 2025.
- For implementation of Agriculture Export Policy, Government approved an outlay Rs 206.8 crore (US\$ 29.59 million) for 2019, aimed at doubling farmers income by 2022.
- Under the Pradhan Mantri Awas Yojana (Urban), Government has sanctioned more than 96.50 lakh houses under PMAY(U) and approved 606 proposals for the construction of 3,31,075 houses with an overall investment of Rs 15,125 crore (US\$ 2.16 billion).
- The Cabinet Committee on Economic Affairs has approved to increase the authorized capital of Food Corporation of India (FCI) from the existing Rs 3,500 crore (US\$ 500.79 million) to Rs 10,000 crore (US\$ 1.43 billion).
- India has registered a 26.9 per cent reduction in Maternal Mortality Ratio (MMR) since 2013: Sample Registration System Bulletin-2016.
- Around 26.02 million households were electrified by 31st March 2019 under Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA).
- In the mid-term review of Foreign Trade Policy (FTP) 2015-20, the Ministry of Commerce and Industry enhanced the scope of Merchandise Exports from India Scheme (MEIS) and Service Exports from India Scheme (SEIS), increased MEIS incentive for ready-made garments and made-ups by 2 per cent, SEIS incentive by 2 per cent and increased the validity of Duty Credit Scrips from 18 months to 24 months. In April 2020, Government extended FTP for one more year (up to March 31, 2021).

ROAD AHEAD

India's GDP is expected to reach US\$ 5 trillion by FY25 and achieve upper-middle income status on the back of digitization, globalization, favorable demographics, and reforms. India is also focusing on renewable sources to generate energy. It is planning to achieve 40 per cent of its energy from non-fossil sources by 2030, which is currently 30 per cent, and have plans to increase its renewable energy capacity from to 175 gigawatt (GW) by 2022. India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behavior and expenditure pattern, according to a Boston Consulting Group (BCG) report. It is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by 2040 as per a report by PricewaterhouseCoopers.

GOLBAL PLASTIC INDUSTRY

INTRODUCTION

The global plastic market size was valued at USD 568.9 billion in 2019 and is expected to grow at a compound annual growth rate (CAGR) of 3.2% from 2020 to 2027. Increasing plastic consumption in the construction, automotive, and electrical and electronics industries is projected to drive the market for plastic over the forecast period. Regulations to decrease gross vehicle weight to improve fuel efficiency and eventually reduce carbon emissions have promoted the use of plastics as a substitute to metals, including aluminum and steel, for the

manufacturing of automotive components. This is further expected to favour the rising demand for plastics in automotive applications over the forecast period.

The growth of the construction industry in emerging markets such as Brazil, China, India, and Mexico has been instrumental in fueling the demand for plastics during 2018 and 2019. However, the recent outbreak of COVID-19 has hampered the demand for plastic in various applications including construction, automotive, electrical and electronics, and consumer goods owing to halt in manufacturing operations, restrictions on supply and transport, and economic slowdown across the globe.

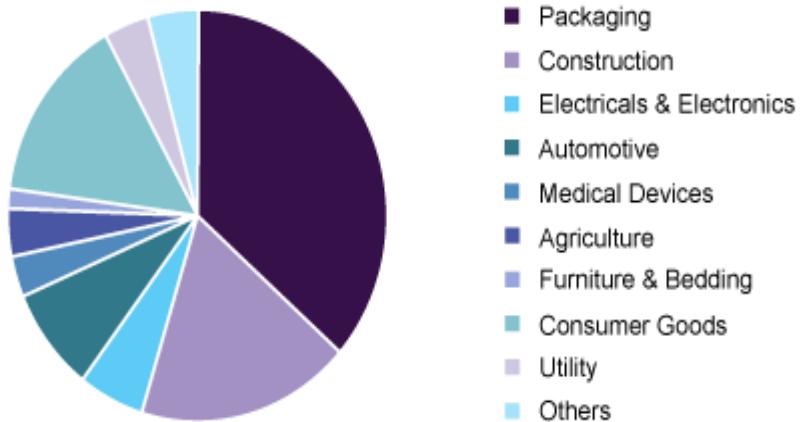

Growing population coupled with rapid urbanization and industrialization in emerging economies has been impelling federal governments to increase their construction spending to cater to increasing infrastructure needs. Rising construction spending by governments, particularly in China and India, will drive the demand for plastics in infrastructure and construction applications. Stringent regulations regarding depletion and recyclability of conventional materials such as metal and wood are anticipated to drive the demand for plastic from construction industries in insulation, pipes, cables, floorings, windows, and storage tanks. Polymer fittings are also generally quite simple and easy to install, compared to metals or wood, with a wide range of colour combinations, adding to their aesthetic appeal.

In terms of revenue, polyethylene dominated the market with a share of 25.7% in 2019. This high share is attributable to the rising demand from packaging sector, which includes containers and bottles, plastic bags, plastic films, and geomembranes. Polyethylene is majorly categorized into two types, namely high-density polyethylene (HDPE) and low-density polyethylene (LDPE). Low-density polyethylene is used as a packaging material in consumer goods, food and beverage, and industrial packaging applications. Whereas, HDPE is widely used in laundry detergent packaging, milk cartons, cutting boards, and garbage bins. Rising demand for packaged food, trays, bottles for milk and fruit juices, crates, caps for food packaging, drums, and other liquid food packaging owing to restrictions on the movement of people to reduce the spread of COVID-19 across the world is expected to drive the demand for polyethylene in the coming years.

In terms of revenue, packaging dominated the market with a share of 36.5% in 2019. This high share is attributable to great demand from various end use industries including medical, construction, and electrical and electronics in emerging economies. The impact of coronavirus pandemic on packaging industry is expected to remain moderate over the forecast period. The demand for packaging for healthcare products, groceries, and e-commerce transportation is expected to increase sharply, while the demand for luxury, industrial, and some B2B-transport packaging might show sluggish growth owing to the several restrictions such as stoppage of industrial production and lockdown of cities, imposed by various governments across the world.

In addition, decline in consumer spending due to the economic slowdown caused by novel coronavirus is further expected to hamper the growth of various end use industries including construction, automotive, and electrical and electronics in coming year. This, in turn, is anticipated to hinder the growth of the plastic market over the forecast period.

Asia Pacific dominated the market with a share of 20.3% in 2019, in terms of revenue. This is attributable to rising. High economic development and consequent rise in consumer spending in emerging economies such as India and Japan along with Southeast Asian countries. Rapid industrialization and increased skilled workforce are benefitting the growth of the manufacturing sector in the region, which in turn, is further fueling the demand for plastics in the region.

However, the recent outbreak of COVID-19 in countries such as China, India, Japan, Australia, Indonesia, Thailand, and others are anticipated to hamper the product demand majorly in construction, automotive, electrical and electronics, and consumer goods applications. The outbreak has resulted in the slowdown or halt in manufacturing operations, restrictions on supply and transport, and infrastructure slowdown, which is expected to negatively impact the demand for plastics in the aforementioned applications in the region in the coming years.

Competitive rivalry among producers is high owing to presence of several players in the market for plastic. The market is highly fragmented in nature with over larger share occupied by medium and small enterprises engaged in manufacturing of plastic. The principal strategy employed by market players is increased focus on high margin products. Companies are heavily investing in capacity expansion coupled with research and development of plastic to have a balanced product portfolio. This is supported by the fact that in March 2017, BASF SE announced to build a new polymer additives plant at its Caojing site in Shanghai, with an investment of USD 217 million. The strategy comes as a part of BASF's previous announcement to invest over EUR 200 million (USD 213.2 million) to increase its production network for polymer additives.

In February 2018, SABIC also announced projects in the Netherlands and Asia aimed at expanding its global capacity for two of its high-performance engineering thermoplastic materials, Noryl and Ultem resins. The planned new production facility in Singapore is likely to go online in the first half of 2021. The organization has also proposed to recommission operations at its Netherlands-based Bergen Op Zoom PPE resin plant by the end of this year to produce polyphenylene ether (PPE).

INDIAN PLASTICS INDUSTRY AND EXPORTS

INTRODUCTION

The Indian plastics industry made a promising beginning in 1957 with the production of polystyrene. Thereafter, significant progress has been made, and the industry has grown and diversified rapidly. The industry spans the country and hosts more than 2,000 exporters. It employs about 4 million people and comprises more than 30,000 processing units, 85-90 percent of which are small and medium-sized enterprises.

- In FY20, plastic and linoleum export from India stood at US\$ 7.55 billion.
- During April 2019-January 2020, plastic export stood at US\$ 7.045 billion with the highest contribution from plastic raw material at US\$ 2.91 billion, plastic sheets, films and plates at US\$ 1.22 billion and packaging materials at US\$ 722.47 million.
- The Indian plastics industry produces and export a wide range of raw materials, plastic-moulded extruded goods, polyester films, moulded/ soft luggage items, writing instruments, plastic woven sacks and bags, polyvinyl chloride (PVC), leather cloth and sheeting, packaging, consumer goods, sanitary fittings, electrical accessories, laboratory/ medical surgical ware, tarpaulins, laminates, fishnets, travel ware, and others.
- The Indian plastics industry offer excellent potential in terms of capacity, infrastructure, and skilled manpower. It is supported by many polymer producers, plastic process machinery and mould manufacturers in the country.
- Among the industry's major strengths is the availability of raw materials in the country. Thus, plastic processors do not have to depend on import. These raw materials, including polypropylene, high-density polyethylene, low-density polyethylene, and PVC, are manufactured domestically.

RECENT DEVELOPMENTS

India is ready to have 18 plastic parks and the Government will be investing Rs 40 crore (US\$ 6.2 million) to increase the domestic production of plastics. This will achieve environmentally sustainable growth and increase employment.

PLASTICS EXPORT PROMOTION COUNCIL

The Plastics Export Promotion Council (PLEXCONCIL) is the apex Government body responsible for the promotion of plastic export. PLEXCONCIL members comprise large-/medium-/small-scale manufacturers and exporters. The council supports exporters by participating in international trade fairs, exploring new markets, organising buyer- seller meets both in India and overseas, and engaging in various other promotion and need-based activities.

5		<p><u>ABS PLASTIC SHEETS</u></p> <p>Acrylonitrile Butadiene Styrene (ABS) consists of different grades, such as virgin grade, economy grade, acrylic capped and flame retardant, in smooth and embossed finishes. ABS plastic sheets can be processed with ease and versatility. They can be machined, turned, drilled, milled, sawed, bored, die cut, routed and sheared using high-speed carbide-tipped tools. ABS can be machine finished by filing, grinding, sanding, buffing and polishing.</p>
6.		<p><u>High Impact Polystyrene (HIPS) Sheets:</u></p> <p>High Impact Polystyrene Sheet / rolls (HIPS) is a lightweight, cost-effective and terrifically versatile material which is highly receptive to thermoforming and printing. It exhibits much higher impact strength and in sheet / roll form is easily fabricated and vacuum formed. It is a very versatile material and provides a cost-effective route to the production of parts for many industrial sectors.</p>

7.		<p><u>PET (Polyethylene Terephthalate) Sheets / Rolls</u></p> <p>The material is composed of either 100% recycled PET flake OR both recycled PET flake and virgin PET material at percentages specified by the customer. R-PET is produced by collecting, sorting and recycling PET, then refining the material into flakes that can be turned into new products. Using R-PET as an alternative to PVC is a huge step forward on the path toward a greener, safer and cleaner future. R-PET sheet with tight tolerances is ideal for packaging, laminating, and custom thermoforming applications.</p>
8.		<p><u>HDPE (High Density Polyethylene) Sheets / Rolls</u></p> <p>HDPE has little branching, giving it stronger intermolecular forces and tensile strength than lower-density polyethylene. It is also harder and more opaque. High-density polyethylene, unlike polypropylene, cannot withstand normally-required autoclaving conditions. The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006 as per section 211(3C) of the Companies Act, 1956 (which are deemed to be applicable as Section 133 of the Companies Act, 2013 (“the Act”) read with Rule 7 of Companies (Accounts) Rules, 2014).

2. USE OF ESTIMATES

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities, if any, as at the date of the financial statements and reported amounts of income and expenses during the year. Examples of such estimates include value of unbilled revenue and value of WIP stock etc. The difference between the actual results and estimates are recognized in the period in which results are known or materialized.

All other borrowing costs are expensed in the period they occur.

6. IMPAIRMENT OF ASSETS

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. 7. INVESTMENTS

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

- ii) RIIs shall ensure that the bank, with which it has its bank account, where the funds equivalent to the application amount is available for blocking has been notified as Issuer Banks for UPI. A list of such banks is available at <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>
- jj) In case of revision of Bids by RII Bidders, if UPI Mandate Request for the revised Bid is not approved, the Application is liable to be rejected.

5.6 BASIS OF ALLOCATION

- a) The SEBI ICDR Regulations specify the allocation or Allotment that may be made to various categories of Applicants in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Prospectus. For details in relation to allocation, the Applicant may refer to the Prospectus.
- b) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLMs and

the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.

- c) In case of under subscription in the Net Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Net Issue. For allocation in the event of an under-subscription applicable to the Issuer, Applicants may refer to the Prospectus.
- d) Illustration of the Book Building and Price Discovery Process Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹ 20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer in consultation with the BRLMs, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

e) Alternate Method of Book Building

In case of FPOs, Issuers may opt for an alternate method of Book Building in which only the Floor Price is specified for the purposes of bidding (“Alternate Book Building Process”).

The Issuer may specify the Floor Price in the Prospectus or advertise the Floor Price at least one Working Day prior to the Bid/ Issue Opening Date. QIBs may Bid at a price higher than the Floor Price and the Allotment to the QIBs is made on a price priority basis. The Bidder with the highest Bid Amount is allotted the number of Equity Shares Bid for and then the second highest Bidder is Allotted Equity Shares and this process continues until all the Equity Shares have been allotted. RIIs, NIIs and Employees are Allotted Equity Shares at the Floor Price and Allotment to these categories of Bidders is made proportionately. If the number of Equity Shares Bid for at a price is more than available quantity then the Allotment may be done on a proportionate basis. Further, the Issuer may place a cap either in terms of number of specified securities or percentage of issued capital of the Issuer that may be Allotted to a single Bidder, decide whether a Bidder be allowed to revise the bid upwards or downwards in terms of price and/or quantity and also decide whether a Bidder be allowed single or multiple bids.

SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE

Applicants may note that there is no Bid cum Application Form in a Fixed Price Issue. As the Issue Price is mentioned in the Fixed Price Issue therefore on filing of the Prospectus with the RoC, the Application so submitted is considered as the Application Form.

Applicants may only use the specified Application Form for the purpose of making an Application in terms of the Prospectus which may be submitted through the Designated Intermediary.

ASBA Applicants may submit an Application Form either in physical form to the Designated Intermediaries or in the electronic form to the SCSB or the Designated Branches of the SCSBs authorising blocking of funds that are available in the ASBA account specified in the Application Form only. The Application Form is also made available on the websites of the Stock Exchanges at least one day prior to the Bid/Issue Opening Date.

In a fixed price Issue, allocation in the net issue to the public category is made as follows: minimum fifty per cent to Retail Individual Investors; and remaining to (i) individual investors other than Retail Individual Investors; and (ii) other Applicants including corporate bodies or institutions, irrespective of the number of specified securities applied for. The unsubscribed portion in either of the categories specified above may be allocated to the Applicants in the other category.

For details of instructions in relation to the Application Form, Applicants may refer to the relevant section of the GID.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Applicants other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Applicants may refer to Prospectus. No Retail Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue (excluding any Offer for Sale of specified securities). However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

7.1 ALLOTMENT TO RIIs

Bids received from the RIIs at or above the Issue Price may be grouped together to determine the total demand under this category. If the aggregate demand in this category is less than or equal to the Retail Category at or above the Issue Price, full Allotment may be made to the RIIs to the extent of the valid Bids. If the aggregate demand in this category is greater than the allocation to in the Retail Category at or above the Issue Price, then the maximum number of RIIs who can be Allotted the minimum Bid Lot will be computed by dividing the total number of Equity Shares available for Allotment to RIIs by the minimum Bid Lot (“Maximum RII Allottees”). The Allotment to the RIIs will then be made in the following manner:

- a) In the event the number of RIIs who have submitted valid Bids in the Issue is equal to or less than Maximum RII Allottees, (i) all such RIIs shall be Allotted the minimum Bid Lot; and (ii) the balance available Equity Shares, if any, remaining in the Retail Category shall be Allotted on a proportionate basis to the RIIs who have received Allotment as per (i) above for the balance demand of the Equity Shares Bid by them (i.e. who have Bid for more than the minimum Bid Lot).
- b) In the event the number of RIIs who have submitted valid Bids in the Issue is more than Maximum RII Allottees, the RIIs (in that category) who will then be Allotted minimum Bid Lot shall be determined on the basis of draw of lots.

7.2 ALLOTMENT TO NIIs

Bids received from NIIs at or above the Issue Price may be grouped together to determine the total demand under this category. The Allotment to all successful NIIs may be made at or above the Issue Price. If the aggregate demand in this category is less than or equal to the Non-Institutional Category at or above the Issue Price, full Allotment may be made to NIIs to the extent of their demand. In case the aggregate demand in this category is greater than the Non-Institutional Category at or above the Issue Price, Allotment may be made on a proportionate basis up to a minimum of the Non-Institutional Category.

7.3 ALLOTMENT TO QIBs

For the Basis of Allotment to Anchor Investors, Applicants may refer to the SEBI ICDR Regulations, 2018 or Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Issue Price

may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner:

- a) In the first instance allocation to Mutual Funds for up to 5% of the QIB Category may be determined as follows:
 - i. In the event that Bids by Mutual Fund exceeds 5% of the QIB Category, allocation to Mutual Funds may be done on a proportionate basis for up to 5% of the QIB Category;
 - ii. In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Category then all Mutual Funds may get full Allotment to the extent of valid Bids received above the Issue Price; and
 - iii. Equity Shares remaining unsubscribed, if any and not allocated to Mutual Funds may be available for Allotment to all QIBs as set out at paragraph 7.4(b) below;
- b) In the second instance, Allotment to all QIBs may be determined as follows:
 - i. In the event of oversubscription in the QIB Category, all QIBs who have submitted Bids above the Issue Price may be Allotted Equity Shares on a proportionate basis for up to 95% of the QIB Category;
 - ii. Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis along with other QIBs; and
 - iii. Under-subscription below 5% of the QIB Category, if any, from Mutual Funds, may be included for allocation to the remaining QIBs on a proportionate basis.

7.4 ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

- a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Issue Price will be at the discretion of the issuer in consultation with the Investor and the BRLMs, subject to compliance with the following requirements:
 - i. not more than 60% of the QIB Category will be allocated to Anchor Investors;
 - ii. one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
 - iii. allocation to Anchor Investors shall be on a discretionary basis and subject to:
 - a maximum number of two Anchor Investors for allocation up to ₹ 10 crore;
 - a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 10 crore and up to ₹ 250 crore subject to minimum Allotment of ₹ 5 crore per such Anchor Investor; and

- b) A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the issuer in consultation with the BRLMs, selected Anchor Investors will be sent a CAN and if required, a revised CAN.
- c) In the event that the Issue Price is higher than the Anchor Investor Issue Price: Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Issue Price and the Anchor Investor Issue Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors.
- d) In the event the Issue Price is lower than the Anchor Investor Issue Price: Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

7.5 BASIS OF ALLOTMENT FOR QIBs (OTHER THAN ANCHOR INVESTORS), NIIs AND RESERVEDCATEGORY IN CASE OF OVER-SUBSCRIBED ISSUE

In the event of the Issue being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the Designated Stock Exchange in accordance with the SEBI ICDR Regulations, 2018.

The allocation may be made in marketable lots, on a proportionate basis as explained below:

- a) Bidders may be categorized according to the number of Equity Shares applied for;
- b) The total number of Equity Shares to be Allotted to each category as a whole may be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio;
- c) The number of Equity Shares to be Allotted to the successful Bidders may be arrived at on a proportionate basis, which is total number of Equity Shares applied for by each Bidder in that category multiplied by the inverse of the over-subscription ratio;
- d) In all Bids where the proportionate Allotment is less than the minimum Bid Lot decided per Bidder, the Allotment may be made as follows: the successful Bidders out of the total Bidders for a category may be determined by a draw of lots in a manner such that the total number of Equity Shares Allotted in that category is equal to the number of Equity Shares calculated in accordance with (b) above; and each successful Bidder may be Allotted a minimum of such Equity Shares equal to the minimum Bid Lot finalised by the Issuer;
- e) If the proportionate Allotment to a Bidder is a number that is more than the minimum Bid lot but is not a multiple of one (which is the marketable lot), the decimal may be rounded off to the higher whole number if that decimal is 0.5 or higher. If that number is lower than 0.5 it may be rounded off to the lower whole number. Allotment to all Bidders in such categories may be arrived at after such rounding off; and
- f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares Allotted to the Bidders in that category, the remaining Equity Shares available for Allotment may be first adjusted against any other category, where the Allotted Equity Shares are not sufficient for proportionate Allotment to the successful Bidders in that category. RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as Department of Industrial Policy and Promotion) (“DPIIT”), issued the Consolidated FDI Policy Circular of 2017 (“FDI Policy”), which, with effect from August 28, 2017, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on August 27, 2017. The FDI Policy will be valid until the DPIIT issues an updated circular. FDI in companies engaged in sectors/ activities which are not listed in the FDI Policy is permitted up to 100% of the paid up share capital of such company under the automatic route, subject to compliance with certain prescribed conditions.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that:

- i) The activities of the investee company are under the automatic route under the FDI policy and transfer does not attract the provisions of the Takeover Regulations;
- ii) The non-resident shareholding is within the sectoral limits under the FDI policy; and
- iii) The pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue. For details, see “*Offer Procedure*” on page 236 of this Draft Prospectus.

Foreign Exchange Laws

The foreign investment in our Company is governed by, inter alia, the FEMA, as amended, the Foreign Exchange Management (Transfer or Issue of Securities by a Person Resident Outside India) Regulations, 2017 as amended, the FDI Policy issued and amended by way of press notes, and the SEBI FPI Regulations. In terms of the FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which the foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA has now been entrusted to the concerned administrative ministries/departments.

RBI has also issued Master Direction on Foreign Investment in India dated January 4, 2018 (updated until March 8, 2019) (“**Master Directions**”). In terms of the Master Directions, an Indian company may issue fresh shares to persons resident outside India (who are eligible to make investments in India, for which the eligibility criteria are as prescribed).

The FEMA Non-Debt Instruments Rules was enacted on October 17, 2019 in supersession of the FEMA Regulations 2017, except as respects things done or omitted to be done before such supersession.

Accordingly, such Equity Shares are being offered and sold only (i) outside the United States of America in an offshore transaction in reliance upon Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sale occur; and (ii) to “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act), pursuant to the private placement exemption set out in Section 4(a) of the U.S. Securities Act.

Further, no offer to the public (as defined under Directive 20003/71/EC, together with any amendments) and implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Issue in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorized. Failure to comply with this directive may result in a violation of the U.S. Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Draft Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations
